Review Questions 2.4

Lab Activities

You will need to complete the following:

Lab 2 Sequelize ORM and Input Validation

PRACTICE

Lab 2 [Pre-lesson] Install MySQL Community Server

Lab 2a Use Sequelize ORM with MySQL Database

Lab 2b Input Validation and Dynamic URL

Lab 2c Use Sequelize ORM with SQLite Database

Lab 2 Submission

Additional Resources

To succeed in this topic, you will have access to various resources, including:

- Sequelize Documentation https://sequelize.org/docs/v6/getting-started/

Discussion Forum

Take some time to reflect on your learning journey so far.

- What key takeaways did you receive?
- What questions do you have about the content?

Post your thoughts and questions in the discussion forum and share your learning journey with all of us.

While you will not be penalised for what you post in the discussion forum, bonus points will be given for active participation.
